INDEX

CHAPTER NO.	CONTENT	PAGE NO.
1	**INTRODUCTION** 1.1Aims and objectives 1.2 Title of the study 1.3Objectives 1.4 Operational Definitions 1.5 Hypotheses 1.6 Assumptions 1.7 Delimitations 1.8 Conceptual Framework	**1-8**
2	**Literature related to** 2.1 Brief summary of Review of Literature 2.2 Gaps in Literature 2.3: What the present study adds	**9-11**
3	**METHODOLOGY** 3.1 Research approach 3.2 Research design 3.3 Variables of the study 3.4 Setting of the study 3.5 Population 3.6 Sample size 3.7 Sampling technique 3.8 Criteria for sample selection 3.9 Development and description of tools 3.10 Content Validity 3.11 Reliability 3.12 Ethical Consideration 3.13 Pilot study	**12-29**

	3.14 Data Collection Procedure 3.15 Plan for data analysis	
4	**ANALYSIS & INTERPRETATION**	**30-35**
5	**SUMMARY, MAJOR FINDINGS AND OUTCOME OF THE STUDY, CONCLUSION AND LIMITATIONS**	**36-38**
6	**REFERENCES**	**39-40**

LIST OF TABLES

TABLE NO.	DESCRIPTION	PAGE NO.
1.	Review of literature	9
2.	Schematic representation of Research design	12
3.	Biochemical Parameters	16
4.	Numerical Pain Rating Scale	16
5.	Fatigue Severity Scale	17
6.	Blood pressure Score interpretation	18
7.	Blood flow by Ankle Brachial Index	19
8.	Zung Self-Rating Anxiety Scale (SAS)	19
9.	Content validity Index of Tool	20
10.	Reliability score of the tools	21
11.	Plan for data analysis	27
12.	Schematic representation of data collection procedure	29
13.	Section 4.2: Assessment of pain, fatigue, blood pressure, blood flow and anxiety among patients subjected to hemodialysis in study and control group.	31
14.	Section 4.3: Comparison of pain among patients subjected to hemodialysis within and between study and control group.	34
15.	Section 4.4: Comparison of fatigue among patients subjected to hemodialysis within and between study and control group.	34
16.	Section 4.5: Comparison of blood pressure among patients subjected to hemodialysis within and between study and control group.	34

17.	Section 4.6: Comparison of blood flow among patients subjected to hemodialysis within and between study and control group.	34
18.	Section 4.7: Comparison of anxiety among patients subjected to hemodialysis within and between study and control group.	34
19.	Section 4.8: Comparison of biochemical variables among patients subjected to hemodialysis between study and control group	34
20.	Section 4.9: Assessment of relationship between pain, fatigue, blood pressure, blood flow and anxiety among patients subjected to hemodialysis in study and control group.	35
21.	Section 4.10: Association of posttest scores of pain, fatigue, blood pressure, blood flow and anxiety among patients with selected background variables in study group.	35
